

Sponsorships

The Industry Partner program is designed to foster professional relationships between Chapter Members and reputable service providers in the local area. This program offers service providers the opportunity to participate in chapter activities that bring together the industry's top property management decision makers.

With over 700 Chapter Members representing the top property management firms in both commercial and residential management, we offer many opportunities for direct contact with these decision makers.

That direct contact includes face to face time with our members at luncheons, meetings and social events; visibility on our website and in our bi-weekly e-blasts; direct mail and email opportunities through our chapter's mass mail and email distribution; and opportunities to sponsor luncheons and other events for added exposure.

Our members appreciate vendors and contractors who show their commitment, loyalty and involvement to the real estate community. By becoming an Industry Partner, you demonstrate that support to our members.

About the Institute of Real Estate Management

IREM® is an international force of 20,000 individuals united to advance the profession of real estate management. Through training, professional development, and collaboration, IREM® supports our members and others in the industry through every stage of their career.

We believe in our people, and we provide the tools they need to succeed. We open doors, we forge connections, and we help show the way forward. Backed by the power that comes with being an affiliate of the National Association of REALTORS®, we add value to our members, who in turn add value to their teams, their workplaces, and the properties in their commercial and residential portfolios.

Our memberships empower college students, young professionals, and industry veterans who are committed to career advancement. Earning our credentials, including the CPM®, ARM®, ACoM, and AMO®, demonstrates a commitment to, and passion for, good management. These credentials, along with our courses and array of resources, all exist with one goal in mind – to make a difference in the careers of those who manage.
