

~*~*~MEET A MEMBER MONDAY!~*~*~

Meet Hongchao Meng, a community manager with the Habitat Company, who recently received his ARM® certification with IREM and was celebrated at the chapter's March luncheon. He was inspired to enter property management to offer better service to a multi-culture community where language barriers and cultural differences might be challenging for other professionals. Offering his language skills and differing background he is a bridge to help and manage day-to-day issues between management and residents.

He is looking forward to the networking and learning opportunities IREM and the Chicago Chapter offer. His motto is: Always keep learning and improving. In his free time, he loves to travel to new places to learn new cultures and learn about the local history and art styles.

Welcome to the chapter and congratulations on your ARM® certification!
