

~*~*~MEET A MEMBER MONDAY!~*~*~

Meet Melanie Norwood, a Resident Experience Association with Buzzuto Management Company managing apartment properties, and a new member to the chapter. We asked her what drew her to joining IREM... was it the networking and business developments opportunities? Was it in an effort to advance her career by meeting and learning from the inspiring members in the chapter? Was it the volunteering and educational offerings that IREM has available to its members? She answered a resounding YES! to all of the above. 😊

Melanie shared that her family has 9 rental houses. She spent part of her childhood growing up in one and watching her family manage them firsthand. She learned “the good, the bad, and the ugly from a young age.” She likes the company she works for and the aesthetic they attempt to provide their residents. “I love working to create a sense of community and making a place to live a true ‘home’,” she says.

Melanie is super creative and love to plan fun events for the residents in their communities! She also creates lots of great marketing content for the community social media channels.

We are so happy to have her in our Chicago chapter and look forward to getting to know Melanie at future chapter events. WELCOME!
