

~*~*~MEET A MEMBER MONDAY!~*~*~

Please help us welcome Madison Watson to the IREM Chicago Chapter. Madison is an assistant property manager with Oliveri Real Estate and currently manages medical and office buildings as well as industrial and warehouse facilities. She is looking forward to the networking events and educational opportunities that IREM offers. Madison shares that “The educational resources IREM offers is like no other. I plan to take advantage of all education that is offered because I am still learning about property management as I go.” We love that hearing energy and excitement!

Madison also shares with us that she started in real estate about a year ago and realized how essential it is to have a great property management team for all properties. The more she learned about various properties, the more interested she became in how to properly manage them so that real estate transactions can go smoother. She is excited to keep learning more in the years to come.

When Madison is not working and learning all she can she teaches fitness classes at the Barre Code.

Next time you see Madison be sure to say HELLO and give her a BIG WELCOME to the Chicago Chapter!
