Please join us in welcoming **MFort Security Services** as a new partner of IREM Chicago! Founded in 2021, MFort Security Services has rapidly grown into a trusted provider of security, concierge, and door staff services for luxury high-rise communities throughout the Chicagoland area. Today, the company proudly employs more than 350 professionals and services over 70 luxury residential properties.

MFort specializes in delivering tailored security and concierge solutions designed to meet the unique needs of each property they serve. Their mission is rooted in building strong, long-lasting partnerships through professionalism, reliability, and exceptional attention to detail.

What truly sets MFort apart is its people-first philosophy. The company strongly believes that outstanding client service begins with taking care of its employees. Through ongoing training, support, leadership, and investment in workplace culture, MFort empowers its team members to perform with confidence and pride — resulting in the dependable, personalized service their clients have come to expect.

Their commitment to vigilance and care was recently demonstrated when one of their staff members noticed a woman outside a client property at 4:03 AM who appeared disoriented and in distress. Acting quickly, the employee contacted 911. Chicago Police responded and later confirmed the woman had been reported missing earlier that evening. Thanks to the attentiveness and compassion of the MFort team member, she was safely reunited with her family within 24 hours.

In an industry built on trust and relationships, integrity remains at the core of everything MFort does. Their dedication to honest, transparent, and dependable service continues to strengthen both client partnerships and team culture alike.

We're excited to welcome MFort Security Services to the IREM Chicago community and look forward to their continued growth and success throughout 2026 and beyond!
