This IREM Chicago Industry Partner Spotlight profile features our new Chicago chapter Platinum partner in the Innovative Technology category....

PPD Painting: leading the charge in commercial painting and maintenance by combining innovative technology with expert craftsmanship.

While they've always been dedicated to delivering top-tier interior and exterior painting, epoxy floor coatings, and pressure washing services, they're now *taking things to new heights* with the addition of drone pressure washing. This cutting-edge service is changing the game, allowing them to clean hard-to-reach areas with precision, efficiency, and safety, all while protecting your property from potential damage.

Drone pressure washing not only enhances the quality of service, but it also helps extend the life of your coatings, reducing the need for frequent maintenance and improving the overall longevity of your building's exterior. At PPD Painting, they understand that quality, reliability, and innovation are key, which is why they're committed to offering comprehensive maintenance solutions that go beyond traditional methods.

As they soar into 2025, they're excited to continue elevating commercial properties with a blend of advanced technology and a personalized, customer-first approach. Whether you're looking to refresh your space with a fresh coat of paint or protect your building with the latest in drone technology, PPD Painting is ready to help your property stand out, stay protected, and look its best for years to come!
