This IREM Chicago Industry Partner Spotlight profile features Prudential Defense Solutions. A leader in security guard and door-staff services for residential, commercial, retail, industrial, and government properties. We are currently one largest of contractors for public school districts in the state of Illinois, and the largest subcontractor for the U.S. Marshal Districts throughout the United States.

Prudential Defense Solutions' ownership were a part of another security company for decades prior to establishing our company. They reached an amicable agreement to part ways and created Prudential Defense Solutions at the start of 2018. Since our inception, Prudential has grown upwards of 30% each year from the opportunities we have been fortunate enough to have; along with the relationships we have built. At Prudential, we are true believers in creating a team dynamic for all our staff by providing opportunities to grow within our company. For many, this can be a career choice path by accepting higher team roles in management that will benefit in many ways.

We are also a big component of philanthropy by being a part of several non-profit organizations, as well as contributing to several charitable events. Our operations department are active members in Chicago for Alderman meetings regarding safety ordinances.

Prudential Defense Solutions' ownership are always working on maintaining a positive workplace environment throughout the company. They provide a monthly incentive such as an employee of the month bonus; as well as the opportunity to be awarded extra vacation days, sports tickets, dinner reservations, and more!

I have been working for Prudential Defense Solutions for over two years now, and I would not change a thing. I have been fortunate enough to grow as a business professional and work alongside clients that I can now call my friends. This stems from the experience and knowledge I learned about this industry from the decades of experience my ownership has had in this field.

Feel free to contact me anytime if you are interested in learning more about our company; I'd be happy to introduce myself.
